

# MEN'S FORUM

California's 1000 year old, 160 foot iconic sequoia called the 'Tunnel Tree' had enchanted millions for its massive size since the 1880s until it collapsed following a storm on January 9, 2017. Because Redwood trees have very shallow roots, they can withstand storms only by intertwining their roots with other sequoias in order to hold one another up. Over time, the Tunnel Tree had become so isolated and its roots so shallow that it could no longer withstand the forces of nature.

## GROWING WHERE IT COUNTS

It's all too easy for men to become isolated and weak with shallow roots thinking that they can stand on their own through the pressures, temptations, adversity and failures of life. So each week mighty sequoia men from all over the city gather to learn how to grow spiritual roots deeper in their relationship to God. As sequoias they desire to become the men, husbands, fathers, friends and leaders that He has called them to be. Forums are designed for men at the 101 level who may not understand much about the Bible but desire to know more about life from God's perspective. Our times are dynamic, focused, fun and informative discussions. Come and see the difference 59 minutes can make.
